

„Youth across the borders”

Stage #1 12-20 September 2015, (9 days) Ada Serbia

Stage #2 9-17 April 2016 (9 days) Nyíregyháza Hungary

The 1st stage of the 2 stage Youth Exchange

Ada | Serbia - September 12-20 2015

Summary

The economic "migration" is one of the most actual and unsolved problems in Europe. The countries from where people emigrate lose young, earning-capable, active citizens. The countries where the people emigrate do not necessarily get conscious, professional human resource, but many times get social problems.

The youth of the left and the recipient countries meet each other in our programme. Our aim is to make the emigration-planning youth think over the challenges of working abroad. The programme also intends to make them get to know the conditions of those jobs which are legal and valuable for their personal career building. The programme also aims to make the involved ones get to know how to launch an enterprise in the "target countries" of the emigrants. In addition we present them those projects which help the youth how to get a job and build a career in the homeland.

The personal decisions, employment and enterprising successes have effects on the economy as well as the social processes of the countries and Europe. During our project we analyse the European economic mobility. Our aims are to discover the causes of the problems, to put forward various suggestions for solving these problems, to present good practices, examples, innovative projects, and to form a ready to enterprise motivation for the extant will of getting a job abroad.

The project seeks the solution to reduce unemployment of the youth as well as tries to roll back the negative cultural prejudice against them.

Besides the rationalization of employment mobility we would like to strengthen the cultural inclusion and acceptance in both sides. Our aim is to reduce the negative stereotypes, prejudice against the citizens of the "migrant countries", especially those ones which affects youth.

During the project we apply non-formal pedagogic methods.

The outcomes of the programme will be summarized and multiplied on the internet (web-sites and social pages) and in a publication.

The programme will be implemented in two locations: in Ada, Serbia between 12-20 September 2015 and in Nyíregyháza, Hungary between 9-17 April 2016.
