

“Share with others”

Training course “**Share with others**” is aimed for youth workers directly working with young people from different target groups or responsible for sharing and providing information about different opportunities (especially Erasmus+ programme) to young people, youth organizations, decision makers etc. Training course will take place in **Great Yarmouth city of UK** and involve 34 participants + trainers from 8 countries across Europe (UK, Estonia, Turkey, Czech Rep, Slovakia, Croatia, Sweden and Spain). The date of project will be between **10-19 March, 2016**. Training will be led by intercultural team of trainers from Estonia and Turkey with the support of UK support team.

Training course helps to develop skills which are essential for this kind of activity: working with different target groups, understanding the concept of intercultural learning, developing personal learning process (LLL & L2L) in the context of non-formal learning. If the first part of training course is more general, the second part gets more concrete: first of all – what are the opportunities of Erasmus+ programme and developing participants’ knowledge of certain sub-programmes, also Youthpass as an important tool in valuing non-formal learning process is examined and introduced (and practiced). Secondly – we work on how to analyze the needs of different target groups, how to motivate them and provide them information (attractively) this way it would be useful for them. The training course also involves local specialists, multipliers and members of local youth organizations who have the chance to share experiences with seminar participants and make new contacts. At the end of the training course participants have the chance to put their learning outcome into practice – they will participate in providing information in different places to different target groups (youth, youth with less opportunities, local municipality workers, unemployed youth, youth organizations etc) and this how they can get a real experience how to provide information in different cultural environments. This is also important to make the training course visible and bring some benefit for the local organisations/youth etc.

Who can participate in the training course?

Eligible participants must be youth workers, youth leaders or volunteers in youth organisations, interested in using intercultural dialogue and can be multiplier. Good (spoken) English language skills required.

Age range: 18-35
