September 24th – October 3rd 2018

### PROJECT DESCRIPTION

---

The project will be composed of one mobility of the Youth Exchange under Key Action 1 of Erasmus+ Programme. Participating organisations are from Poland, Greece, Italy, Romania, Spain and Turkey.

The main objective of the project is to prepare young people to enter a job market, either as an employee or an entrepreneur. We will be developing entrepreneurial and personal skills such as critical thinking or sense of initiative to encourage participants to come out of their comfort zones. The participants will have a chance to exchange experience and learn from peers who face similar challenges. We will be improving IT competences, for example blog and website building as a tool of entrepreneurship. There will be three main topics will be discussed and practiced:

1) ENTREPRENEURSHIP and EMPLOYMENT:

- building CV&CL - preparing for job interview - how to find a job effectively - shall I be entrepreneur or employee?
- planning and organizing
- goal setting
- decision making.

2) IT COMPETENCES:

- how to create a website, blog - useful programmes, applications for blog/website building - mind mapping tools
- visibility in the Internet.

3) INTERCULTURAL AWARENESS:

- promoting diversity
- intercultural dialogue
- human rights, tolerance and respect.
